

Distributed computing in Python

Petr Janík, 2023

Motivation

- 😊 It's easy to develop POC ML algorithms locally on small data.
- 😓 It's hard to put them to production and/or run them on large data.

Solution

Distributed computing

Dask.distributed

A lightweight library for distributed computing in Python.

<https://distributed.dask.org/>

How to install

```
poetry add dask distributed
```

Thank you
